

Bank Overview

This Visualization helps in analyzing the overall balance sheet of a bank in terms of expenses incurred over a year, along with the comparison from previous year.

Here, Selecting on a particular Bank will display the balance sheet of the bank on a selected year, red and green color dot will display the comparison from previous year in terms of high and low expenses.

Bank Overview

Decision Tree in Tableau

Decision Tree in Tableau is also known as Flow Chart and Flow Diagram. A flowchart is a type of diagram that represents an algorithm, workflow or process, showing the steps as boxes of various kinds, and their order by connecting them with arrows. This diagrammatic representation illustrates a solution model to a given problem. Flowcharts are used in analyzing, designing, documenting or managing a process or program in various fields.
