

BIZ VIZ – Your visualization lookbook!

This Visualization helps in identifying the Sales trend over the year, quarter and month along with the maximum and minimum point of sales. It also reflects the year on year growth, quarter on quarter growth and month on month growth of Profit, Sales and Quantity, with respect to Region and Product Category.

Selecting a particular Region and Product, will provide us with the information about the sales trend and there growth pattern.

LINE CHART

Line Charts connect individual data points in a view. They provide a simple way to visualize a sequence of values and are useful when you want to see trends over time, or to forecast future values. The line mark type is useful when you want to see trends in data over time, your data are ordered, or interpolation makes sense.
