

Hello!

BIZ VIZ – Your visualization lookbook!

May 2018 – 2nd Issue

### Waffle Chart

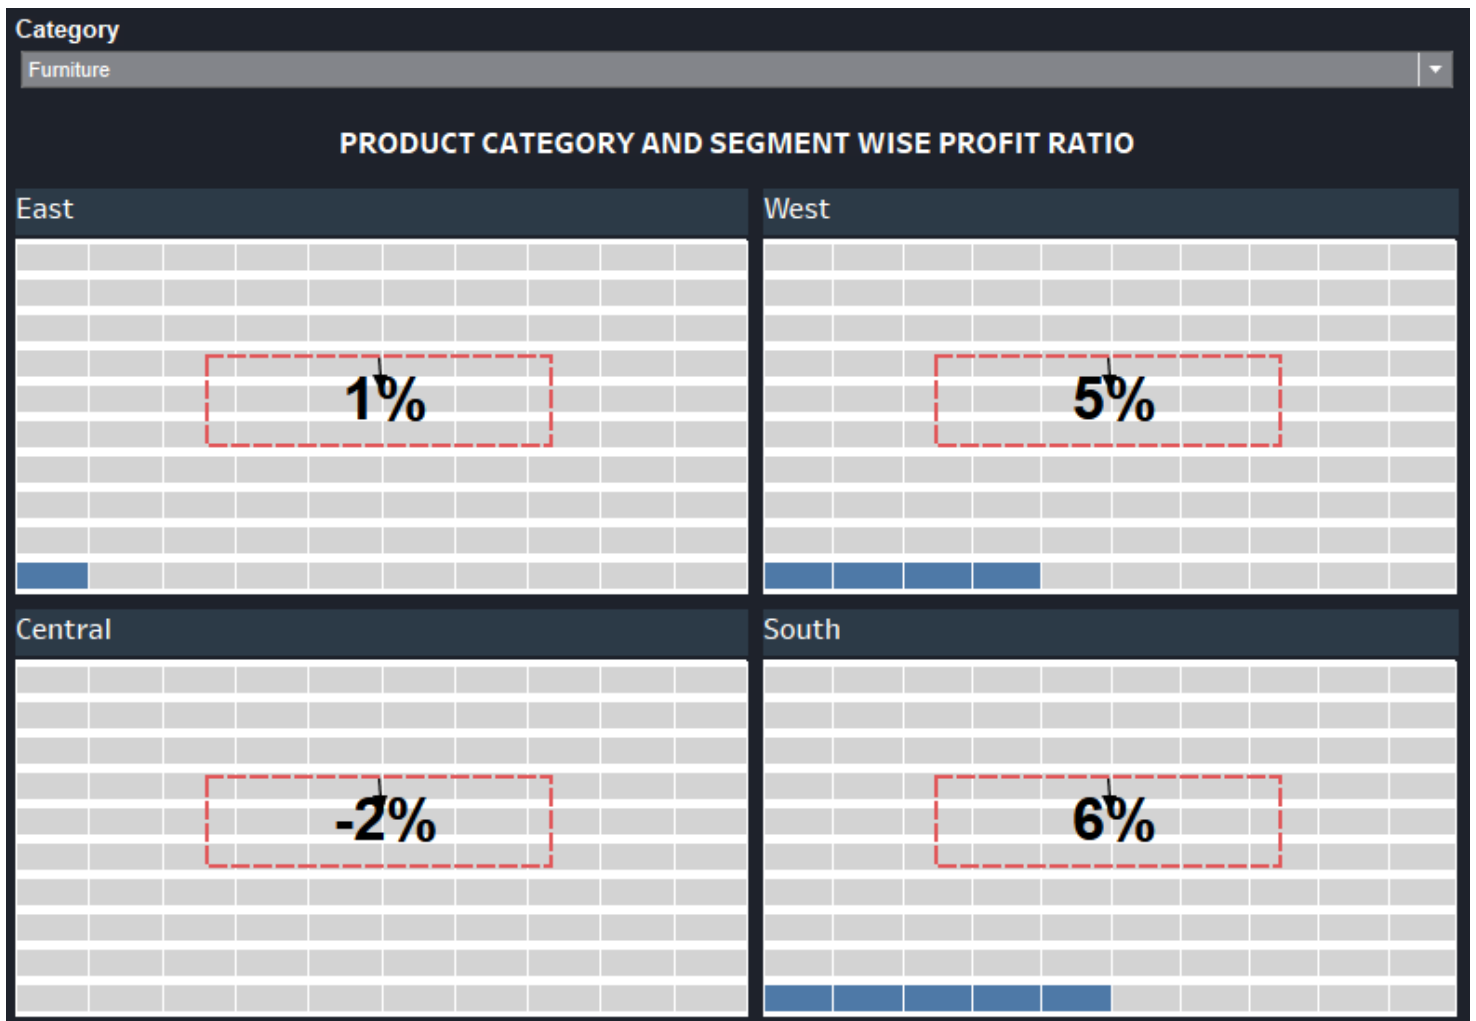

Waffle charts display parts-to-whole contribution. Here, in the visualization it is depicting the highest profit ratio by region for all Categories.

Selecting a particular Category will display the profit ratio by each region.

Further selecting another Category will display the profit ratio by each region for that specific category.

#### WAFFLE CHART

**Waffle chart** shares almost identical use cases to the donut chart, it excels at showing a more compelling way to visualize 0-100% KPI attainment than an isolated metric can. It also has a niche for showing parts-to-whole contribution.

#### How to create Waffle Chart in Tableau
